

英达实地板介绍及案例

Bamboo industriale

Striking look and strength

Bamboo Industriale consists of small floor 'boards' made from short solid bamboo strips, creating the specific industrial look. The 'boards' are in fact blocks of strips bundled together with tape (so no glue is used in the product itself!). Being made of such small strips, the floor is very stable – making it the perfect solution for application on floor heating. This floor has the thickest wear layer of all floors: up to 15 mm!

英达实地板：极富视觉冲击力。英达实地板是由小的竹条用胶带制成，具有特殊的工业外观。地板是由小竹条用胶带构成的（在其生产过程中没有使用胶水）由于是由小竹条构成，稳定性非常好，对于地热应用也是非常好的选择。具有竹地板中最厚的耐磨层，是用于商业用途和高客流量应用的理想选择。

优点：1、二氧化碳中性排放 2、LEED 和BREEAM 认证 3、室内排放---A+级 4、地热 5、防火安全CF1-s1 (EN13501-1)
